WORK HISTORY

TECH ARCHITECTURE ANALYST / JIRA ADMINISTRATOR 09/2022 to Current Accenture, Remote

- Participated in the implementation and administration of Jira Service Management (JSM), supporting service desk configuration, request types, queues, workflows, and user access management.
- Led migration of 100+ projects across 3 enterprise clients from Rally (Agile Central) to Jira
- Supported 10,000+ users, ensuring seamless transition and high system adoption
- Migrated approximately 100,000+ issues per client, preserving historical data integrity
- Designed and implemented complex Jira workflows, custom fields, and permission schemes
- Developed automation solutions using Script Runner (Groovy): listeners, behaviors, custom scripts
- Built automations including dynamic field updates, scheduled jobs, and workflow-based notifications
- Integrated Jira with external tools using REST APIs and Python scripts
- Worked with integrations including Git Kraken, X Ray, and Figma
- Conducted UAT and implemented improvements based on user feedback
- Collaborated with cross-functional teams and stakeholders
- Delivered training, documentation, and ongoing user support
- Improved internal process through the creation of Python and Groovy scripts based on

Jira API's so we were able to decrease the time for project, configurations, sprints, cleaning up, and other processes.

TEACHER 09/2021 to 09/2022

Vizcaya University, Saltillo, Coahuila, Mexico

- Maintained accurate records of student progress, attendance, and behavior to facilitate ongoing communication.
- Identified struggling students early on and provided additional support through tutoring sessions and modified lesson plans.
- Assessed student performance regularly using both formative and summative assessments to inform future lesson planning.
- Collaborated with other teachers to plan interdisciplinary units that connected subjects and promoted deeper understanding among students.
- Participation as a teacher in the subjects of hygiene and sanity of food products, conservation methods, informatic, statistical, modality online and face- to-face

TEACHER 01/2021 to 09/2022

La Salle University, Saltillo, Coahuila, Mexico

- Developed strong relationships with students, parents, and colleagues by maintaining open lines of communication and fostering a supportive learning environment.
- Managed classroom behavior effectively by establishing clear expectations, modeling appropriate conduct, and consistently enforcing established rules and consequences.
- Enhanced classroom engagement using interactive teaching methods, such as group projects and hands-on activities.
- Participation as a teacher in the subjects of food production processes, epidemiology, food hygiene management, advanced biochemistry, research methodology, online and face-to-face.
